What will happen next?

Stewart Baxter Funeral & Memorial Services will send a caring professional to your loved one's location as soon as we are notified and your loved one is released. In most cases, our response time is 60-90 minutes when located within 25 miles of one of our locations. Your loved one is then transferred directly to the funeral home.

Trained, caring professionals.

A funeral director will be dedicated to assisting you and your family and will contact you to set an appointment for the arrangement conference. From there, we will then take care of filing all necessary paperwork with the State of Iowa, assist you in making arrangements associated with a service, etc.

We are here to help.

Please call us if you have additional questions or need immediate assistance at any of our numbers, day or night.
